VIMEO/OVEE Hidden Video Integration Directions

All PUBLIC videos on Vimeo can be screened on OVEE.

For those that want to show <u>HIDDEN VIDEOS</u> on OVEE you will need to create a PRO ACCOUNT in Vimeo and follow the directions below to integrate with OVEE.

STEP 1: CREATE A VIMEO TOKEN

Log in to Vimeo

Top right, GO TO: Account Settings

At footer of page, GO TO: Vimeo>Developers

CLICK: MY APPS button
        Or go directly to https://developer.vimeo.com/apps

CLICK: CREATE NEW APP button

Required fields:
        Name: OVEE
        App Description: OVEE Integration
        APP URL: https://ovee.itvs.org

CLICK: AUTHENTICATION to generate token

Copy/Paste the TOKEN string and send to ITVS. We will then add it to your partner account.

THIS CAN ONLY BE DONE ONCE.

STEP 2: HOW TO SHOW SPECIFIC HIDDEN VIDEOS ON OVEE

GO TO: SETTINGS of the specific video you want to screen as hidden on OVEE

CLICK: PRIVACY in top menu bar

Who can watch this video?
CHECK: HIDE VIDEO FROM VIMEO CHANNEL (last option)

VIMEO/OVEE Hidden Video Integration Directions – Con't

Where can this video be embedded?
CHECK: Only sites I choose (last option)
Enter the domains you want to allow this video to appear on: ovee.itvs.org

Who can comment on this video?
CHECK: No One

CLICK: SAVE CHANGES button

GO BACK TO TOP OF PAGE

CLICK: EMBED in top menu bar

Turn off all buttons on video player (they won't work anyway)

CLICK: SAVE CHANGES button

STEP 3: LINK HIDDEN VIMEO VIDEO TO OVEE

On the SCHEDULE YOUR SCREENING page you can paste either full VIMEO URL, or unique video number, into OVEE during screening setup
   For Example: https://vimeo.com/162432151
              162432151

During screening:
Moderator should NOT be logged into Vimeo account and OVEE in same browser (ok if different browsers - ie Firefox vs Chrome vs Safari), and could impact audio/video sync

No Closed Captioning on VIMEO
