MAPPING STEM CELL RESEARCH: Terra Incognita

A Documentary by Maria Finitzo

Some consider stem cell research the Holy Grail of regenerative medicine. Others view the idea as morally wrong. But what would you do if your child became paralyzed from the waist down and you had access to the research that might allow them to walk again? Follow a respected neurologist into the unknown territory of stem cell research.

MAPPING STEM CELL RESEARCH: TERRA INCOGNITA WILL AIR NATIONALLY ON THE EMMY AWARD-WINNING PBS SERIES *INDEPENDENT LENS* ON TUESDAY, JANUARY 15, 2008 AT 10 PM. CHECK LOCAL LISTINGS.

Visit the *Independent Lens* website to learn more about MAPPING STEM CELL RESEARCH: Terra Incognita. Share your thoughts about the film in Talkback—online at pbs.org/independentlens/stemcell

MAPPING STEM CELL RESEARCH: Terra Incognita was produced by Kartemquin Educational Films. The Emmy award-winning series *Independent Lens* is jointly curated by ITVS and PBS and is funded by the Corporation for Public Broadcasting (CPB) with additional funding provided by PBS and the National Endowment for the Arts.
